Brings strong analytical skills supported by SQL, Python, Excel, and Tableau to help organizations make data-driven decisions.

DATA ANALYTICS PROJECTS

Data analyst

Oct 2025 - March 2026

1 | *Preparing for the Influenza Season in the US*

Identified high-risk states and critical periods for adults 65+ by analyzing mortality trends, enabling more accurate staffing and resource planning for healthcare teams.

2 | *Rockbuster Stealth Analysis*

Delivered strategic insights on customer behavior, film performance, and revenue opportunities, guiding leadership on market expansion and operational priorities.

3 | *Instacart Grocery Basket Analysis*

Revealed the most profitable customer segments and purchasing patterns, supporting targeted marketing decisions and improved allocation of promotional budgets.

WORK EXPERIENCE

Order Picker – Rossman, Kaufland & Penny

2023-2025

- Worked in a demanding retail environment with extreme cold conditions, heavy lifting, and a fast pace.
- Organized orders with strong attention to detail to prevent errors and losses.
- Adapted quickly to challenging working conditions while maintaining consistent performance.
- Reached performance targets required for bonuses, showing resilience and reliability.

Warehouse Responsible – LEONI Tunisia

2020-2023

- Managed a newly created warehouse for a major German company, working under pressure from internal and external audits.
- Organized and structured unclear processes, resolving material, technical, and personnel issues.
- Oversaw daily operations, ensured proper administrative and physical organization, and met daily and weekly targets.
- Worked extended hours when needed to keep operations on track.
- Helped the warehouse transition to smoother and more automated workflows, reducing manual intervention and maintaining efficient product flow.

TOOLS

- ❖ Tableau public
- ❖ PostgreSQL
- ❖ DB visualizer
- ❖ Python - Jupiter Notebook
- ❖ Excel / Microsoft

Personal project: Clothing sales

2019-2020

- Conducted market research and defined the clothing product offering.
- Set up sourcing, managed stock, and launched the sales process.
- Achieved initial sales and established a structured operational workflow.

Marketing Coordinator/sales – SsangYong & Mahindra

2017-2019

- Coordinated marketing activities with colleagues, external agencies, and subsidiaries across Tunisia.
- Took part in launching major national advertising campaigns and handled the technical and administrative preparation for new car models.
- Oversaw several advertising campaigns from launch to completion, working under strict deadlines and coordinating with agencies, radio and TV partners, and internal teams.
- Prepared accurate technical and administrative documents with strong attention to detail.
- Contributed to smooth campaign execution, high customer satisfaction, and additional car sales, while maintaining the brand's reputation by avoiding costly errors.
